OBJECTIVE

To utilize my exceptional technical skill and managerial expertise to drive revenue growth and exceed achievable targets for a progressive and prosperous company.

EXPERIENCE

June 2023 - Present

Chief Information Officer | Arishti Info Labs

As Chief Information Officer (CIO), my responsibilities included overseeing office and cloud infrastructure management, which encompassed leading departments such as DevOps and Network Administration. Additionally, I supervised Operations and Customer Success Management departments.

June 2021 - June 2023

Sr. Software Developer | Arishti Info Labs

I commenced my career as a Senior Software Developer specializing in the research and development of next-generation cybersecurity products.

Feb 2021 - June 2021

Jr. Software Developer | TechAvidus

In my capacity as a Junior Software Developer, my primary responsibilities included contributing to the development of Node.js and Angular projects as assigned, while also providing guidance and assistance to new interns in accomplishing their tasks.

Oct 2019 - Feb 2021

Frontend Developer | Nimblechapps

As a Frontend Developer, my role encompassed successfully executing tasks across projects involving Node.js, Angular, and React technologies.

July 2018 - Oct 2019

Frontend Developer | Weblight Solutions

As a Frontend Developer, my role encompassed successfully executing tasks across projects involving Node.js, Angular, and React technologies.
